Econ Remix: Suno Song Project

Turn a supply-and-demand situation into a creative, AI-generated song.

⭐ Purpose (Why We're Doing This)

This creative assignment helps you demonstrate your understanding of supply, demand, and market changes through a memorable, fun format. By turning an economic scenario into lyrics and a Suno-generated song, you strengthen:

- Your understanding of cause-and-effect in markets
- Your ability to explain concepts clearly
- Your confidence using economic vocabulary
- Your creativity and communication skills

This assignment also prepares you for future tasks, especially the Final Business Economics Briefing.

🧠 Task (Step-by-Step Instructions)

1. **Choose a simple economic scenario.** Examples:
   - Concert tickets selling out
   - A coffee shop with rising demand on cold days
   - Prices increasing due to low supply
   - Holiday demand spikes
2. **Write 2–6 lines of lyrics** that include:
   - One change in supply or demand
   - One resulting price or quantity change
   - At least two correct economic terms
3. **Generate your song** using **Suno (https://suno.com)** .
   - Paste your lyrics
   - Choose a style (pop, rap, country, EDM, etc.)
   - Generate your track
   - Download or copy your share link

4. **Submit your work in Canvas:**
    - Your Suno link OR audio file
    - Your lyrics
    - A short (3–4 sentence) explanation identifying:
        - The economic scenario
        - What shifted—supply or demand
        - The price or quantity effect
        - The economic terms used

🎯 Criteria for Success (How You'll Be Graded)

- **Economic Accuracy (40%)** — Correct use of terms, clear supply/demand shift, and correct price/quantity impact.
- **Creativity & Clarity (30%)** — Lyrics tell a coherent economic story; the song is easy to follow.
- **Reflection (20%)** — Explains the scenario and concepts accurately.
- **Technical Completion (10%)** — Working link/file, lyrics included, clean formatting.

⏱️ Estimated Time to Complete

- Brainstorming: 10 minutes
- Writing lyrics: 10–15 minutes
- Generating the song: 5 minutes
- Writing your explanation: 10 minutes

Total: 30–45 minutes

⚠ Common Mistakes to Avoid

- Only describing price without the cause
- No actual supply or demand shift
- Incorrect use of terms
- Submitting a link without lyrics
